

Ass Eaters Unanimous VII

Sign Europe presents exceptional productions from current offerings in each issue. This time we decided on „Ass Eaters Unanimous VII“ from Evolution Erotica distributed by Shots Video.

Blow Job Videos frequently are boring and Tom Byron, director of Evolution Erotica with an experience of 23 years, has the suitable answer with „AssEaters Unanimous“. It is no secret that women love crisp rear ends of men. But the eight actresses who accompany the audience for more than two hours in this title, have other ways of showing this. They lick the butts of their male partners. So „AssEaters Unanimous“ comes from the ass-to-mouth genre. The title offers a welcome change to conventional films because it's completely without common scenes like anal, double penetration or similar. In exchange it offers, besides extended ass-to-mouth scenes, energy-loaded oral sex scenes with cumshots and facials. Actors and actresses work on each other with mouth and tongue.

Director Tom Byron has engaged exceptionally very well built and handsome actresses with: Roxy Jezel, Genesis Skye, Alex Devine, Deja Daire, Katrina Kraven, Gia Jordan, Candy Apple and Laura. They display much verve while they see to the men but they also like to be spoiled by their partners' tongue. Every scene ends with a cumshot into the face of the respective actress, captured by the camera. The background noises also are correct. Striking is the good atmosphere on set. There is a lot of joke cracking and laughing going on.

The DVD contains bonus material like „Behind the scenes“ footage, a photo gallery, trailers as well as the menu item „Cumshot“, which makes it possible for the viewer to look at all cumshot scenes separately.

A very interesting film due to its ass-to-mouth topic, which brings much variety onto the present market. This title is a must-have for all porn consumers who are focused on oral sex. The choice of the actresses has also turned out more than well. „AssEaters Unanimous VII“ is a highlight in June. Shots Video distributes the titles of the label Evolution Erotica throughout Europe. They shouldn't be missed in any sex shop and in no video library.
