

## Lick me all over ... too

*Sign Europe* presents exceptional productions from current offerings in each issue. This time we decided on „Lick me all over ... too“ from Maximum Grind distributed by Shots Video.

The title comes from the very popular genre Lesbo sex, but all scenes from this film are special in that they also appeal to feet, tights and shoe fetishes. Though Lesbo sex titles often are restricted to oral sex and the use of love toys, „Lick me all over ... too“ is one step ahead, because feet, tights and shoes decisively stand in the foreground. Two young, attractive, often black actresses, who soon become acquainted to each other, can be seen in the scenes. They wear stimulating tights, net tights or also high heels. But many scenes with bare, well-built legs and feet can be seen. Of course, the protagonists do not only lick feet and shoes but the whole body. From this many appealing images were created, which were captured by the director Nick Nasty. In one scene he works with a very well done switch from black and white to coloured pictures. The title did not need many locations; the actresses are mostly in bed or on the couch. The sex scenes are appealing because they are shot very intimately and affectionately. The actresses lick each other with great enthusiasm, especially the feet. The actresses take much time to please their female partners. Some of the actresses satisfy themselves while their feet and legs are being licked.

The title can be recommended for its quality and content for the area of niche products. Tights, shoe and feet lovers get their money's worth. But also other erotic film fans will find pleasure at the pretty actresses and their doings. „Lick me all over ... too“ shouldn't be missed in any sex shop or video library. One of the highlights of the month of July.
