How long have you been working in the erotic industry? And what made you decide to want to do this for a living?

I have now been active for more than 10 years in the erotic business. I started with soft-core and glamour erotic scenes. Later on, about 6 years ago I also started

working and making movies in the hardcore film industry. I really like doing this and want to carry on working in the hardcore sector, make my own movies and productions, and also cast other new girls and boys who want to play in my movies.

What was your occupation before?

Before I was a famous porn star, I worked for 6 years in a totally different area, taking care for older people, nursing and helping them.

Where were you born?

I was born in the city of Rotterdam in the Netherlands.

What do you enjoy the most about working as a performer and model?

I like the attention I get in this line of work, everybody wants to do this. Everyone has dreams about working in the Porn business, making sex Movies, but I am the one who does it, the one who has made it reality. I have been to so many different places on the earth, have travelled to so many places because of my job. So for me, every day is different from the one before. I have turned my hobby and passion into my profession. I love to have sex, I like it very much, I enjoy

it for real and I also mean my own sex life and not just the commercial one.

What do you enjoy, what could you do without?

Everything I do is nice and enjoyable; I don't do anything that I don't like. It's my passion. I must like it, otherwise I wouldn't have done so many live shows, photo shoots and of course, my own porn movies. My other hobby, you will never guess: I like to stay and work on a farm and I love camping.

How long have you been under contract at Shots Video?

I have been under contract at Shots Video for two years now. And I like it very much. In my own words: It's super.

How would you describe the work you do at Shots Video?

Very nice, thrilling, a lot of photo shoots and a lot of film work for my own DVD's.

You have a large fan club inside and outside of the Netherlands. What do you think is the secret of your success?

I am normal regular woman, anyone can approach me at live stage shows, at erotic exhibitions, and I'm at many more different locations with my live acts and erotic shows.

Who knows what's going on

You are one of the mature performers in the business. And in this business as well as many other industries, the performers seem to be getting younger all the time. How would you explain the fact that you're still up at the top?

Hard work, positive thinking, a constant enjoyment of my job, never doing things I don't like to do. Just carrying on, staying in the picture, keeping up a certain level in order to stay popular.

How do you keep yourself fit?

I have a very busy life, with my horses, dogs and my family. Besides that off course, I have my work. I dance a lot, keeping myself in good condition and shape. I am always so busy I don't have much time to sit down and just do nothing.

What tips and advice would you give to young models who may want to begin a career in the erotic industry?

Take care of yourself, and don't work with just anyone. There are a lot of people in this business who you can't trust. Be on the lookout for people like that. Always be

who you are, never do things just because other people want you to do them or things you don't like to do, on the film set for example.

You can be seen quite a lot with Ramona and Lucy, did you discover them? Or why is it that you can be seen performing together so often?

Yes, you could say that I discovered them, and have taken these girls under my wing. These two girls are wonderful. They work very hard and they are good for many things in this erotic business. Also the things that they will do afterwards, give them time to grow in this world, the same way I have grown in this business. Time is the only thing they need, in order for them to do what I am now doing.

Do you have any role models or idols? If yes, then who are they?

No I don't have any.

What do you do in your spare time, when you're not in front of the camera?

Like I said before, I have my own horses and dogs. That takes up most of my free time. It takes a lot of time when you work with animals, just to show them how much

you love them. I love to go to the sauna and steam baths. I also love to go out to dinner, Japanese food for example.

What are your goals, or what plans do you have for the future?

I don't need to be a millionaire, to be rich, just as long as I have a nice life, can take a holiday once and a while and health. I'll see what the future brings me. Things are going very good for me at the moment and I hope it will stay this way for a long time to come. I want to do the things I'm passionate about, that's what my life's about.

Could you describe the erotic industry the way you see it?

It's still a very big industry and a professional business. It's like in the fashion business; everything changes so quickly, you have to go with it. You need to keep your senses sharp for the things happening around you in the erotic world. Don't sit still, be aware and don't be afraid to change yourself or the things you do in the industry.
